Airtel X Labs

Mr. K. Karthikeyan
Founder and Attorney
Gestalt Strategy

Dr. S. Iyengar
Associate Professor
IIT - Ropar

Dr. Inder Gopal
Visiting Professor
RBCCPS, IISc

14 Feb 2020, Friday @ 4 PM

Faculty Hall Main Building, IISc | Refreshments @ 3:30 PM

Data is the new oil! And data mining and artificial intelligence are significantly contributing to this potential. This panel explores the economic, policy, regulatory, and standardization issues involved in using data to generate value. Here are some questions that we hope to be smarter about:

- What are the issues of privacy and security in using public data?
- Will data make discrimination against people easier and acceptable?
- Should we advocate for regulation and legislation or let the marketplace drive this space?
- Should private companies make profits from public data? What can be the acceptable business models?
- Is the Indian experience unique or can we learn from other countries?
