## COVID-19 A Case Study: Insight Journey from SPAIN

**11** July, 2020  
Saturday  
4:00 PM

Spain is one of the countries worst hit by covid-19 pandemic in terms of deaths per one million population, as well as by health workers infected. How could this happen in a country with a pretty good health system (ranks among 1<sup>st</sup> -19<sup>th</sup> in the world depending on criteria)? The seminar will focus on the political, health, and economic decisions that may have influenced this tragic outcome; what lies ahead; and what lessons could be learned. It will also show some events and social media pieces shared by the Spanish population during the last four months.
