

# NITIVIMARSH

*Invites you to the Seminar Series on*

## Law and Political Economy of Information Regulation in India

This talk will explore the historical development of internet regulation and data governance in India, and examine how more just and equitable governance frameworks can be developed.

**DIVIJ JOSHI**

Lawyer  
Legal Researcher

Mr Divij Joshi is a lawyer and researcher studying the intersections of technology, regulation and society, based in London and India. He is a Doctoral Researcher at University College London. His research examines the legal and political implications of platforms and information infrastructures.

ALL ARE WELCOME
