## India's Intermediary Guidelines and Digital Media Rules - A New Paradigm for Online Media?

**DIVIJ JOSHI**

Lawyer  
Legal Researcher

Mr Divij Joshi is an independent lawyer and a legal researcher. He is a Visiting Fellow at the NCBS Archives, examining archives, access and law, and also co-investigating a project on information regulation in India, with the Centre for Law and Policy Research.

On 25 February 2021, the Government of India announced wide-ranging changes to its regulatory mechanisms for governing online speech. These changes, made as to the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021, substantially alter the framework for the regulation of online platforms as well as all manner of online media and content. This talk will examine and critically interrogate the framework introduced under the new IT Rules, tracing their conceptual origins and their impact on constitutional rights including the freedom of press and the right to privacy.

ALL ARE WELCOME

**NitiVimarsh**, an initiative of the Centre for Society and Policy (CSP) at the Indian Institute of Science, is a platform for S&T conversations around philosophy, policy, and social design.
